

Portland Museum of Art

FULL SIGNAL Movie

Sunday, March 7th

2:00 p.m. (tickets \$7.00)

Join us to watch this award-winning, new documentary about the hazards of cell phones and wireless technologies and learn about the growing conflict between telecom industry ambitions and public health.

Full Signal talks to scientists around the world who are researching the health effects of cellular technology; to activists fighting to regulate the placement of antennas; and to lawyers and lawmakers who represent the people wanting those antennas regulated for the sake of public health.

After The Screening, there will be a discussion about this important emerging public health issue featuring:

- **FULL SIGNAL Director, Talal Jabari**, a former CBS News producer and documentary maker
- **Camilla Rees, MBA** founder of www.ElectromagneticHealth.org and co-author of *"Public Health SOS: The Shadow Side of the Wireless Revolution"*
- **Lloyd Morgan, B.Sc.**, researcher and expert in brain tumor science, who was the lead author of *Cellphones and Brain Tumors: 15 Reasons for Concern*, and
- **Maine Rep. Andrea Boland**, sponsor of the *Children's Wireless Protection Act* that is calling for warning labels on cell phones (LD 1706)
